Electrotherapy

If you have patients that suffer from chronic pain, electrotherapy products can help break the pain cycle and aid in the normal healing process. Whether you are using electrotherapy for the treatment of back pain, sport injuries or general muscle pain, Roscoe has a wide variety of TENS units to choose from.

InTENSity™ Digital Series

InTENSity™ Select Combo

The InTENSity™ Select Combo is a powerful, easy-to-use portable electrotherapy device. Complete with four waveforms, the unit gives you and your patients the flexibility to treat a variety of musculoskeletal issues. With a strong current of 105 mA, this innovative device combines TENS, EMS, Interferential and Microcurrent and comes complete with an AC adaptor ensuring you always have power to the device when traveling.

Product Features:

- Simple-to-operate, portable electrotherapy device for pain management
- Four waveforms, TENS, EMS, Interferential and Microcurrent
- Comes complete with carrying case, two sets of lead wires, 9-volt battery, AC adaptor, manual and pack of four self-adhesive reusable electrodes
- Power Source: Standard 9-volt battery or AC adaptor
- Dimensions: 4.5" x 2.55" x 0.9"
- Weight: 0.28 lb. with battery
- One year warranty
- HCPCS Code: E0730* for TENS Unit
- HCPCS Code: A4595* for electrotherapy supplies

Product Specifications:

InTENSity™ Twin Stim® III

The InTENSity™ Twin Stim® III is a portable electrotherapy device featuring two therapeutic modes: TENS and EMS therapy, which are used for pain relief and electrical stimulation. When operating in TENS mode, the unit has four modes and when operating in EMS mode, three modes. An industry leader at 105 mA, this device comes standard with an AC adaptor.

Product Features:

- Simple-to-operate, portable electrotherapy device for pain management
- Unit combines TENS and EMS therapy for optimal treatment
- Four modes for TENS therapy: Burst, Normal, Mod 1 and Mod 2
- Three modes for EMS therapy: Synchronous, Asynchronous and Delay
- Comes complete with carrying case, two sets of lead wires, 9-volt battery, AC adaptor, manual and pack of four self-adhesive reusable electrodes
- Power Source: Standard 9-volt battery or AC adaptor
- Dimensions: 4.5" x 2.55" x 0.9"
- Weight: 0.28 lb. with battery
- One year warranty
- HCPCS Code: E0730* for TENS Unit
- HCPCS Code: A4595* for electrotherapy supplies

Product Specifications:

	TENS	EMS

InTENSity™ IF Combo

The InTENSity™ IF Combo combines TENS and Interferential treatment, giving you the best chance of treating patients that need something stronger than TENS therapy alone. The IF Combo has four modes of operation in both TENS and Interferential, ensuring that your patient is getting the most pain relief. The unit is 105 mA strong and comes complete with a AC adaptor so patient can get relief virtually anywhere.

Product Features:

- Simple-to-operate, portable electrotherapy device for pain management
- Combines TENS and Interferential treatment for patients needing stronger therapy
- Comes complete with carrying case, two sets of lead wires, 9-volt battery, AC adaptor, manual and pack of four self-adhesive reusable electrodes
- Power Source: Standard 9-volt battery or AC adaptor
- Dimensions: 4.5" x 2.55" x 0.9"
- Weight: 0.28 lb. with battery
- One year warranty
- HCPCS Code: E0730* for TENS Unit
- HCPCS Code: A4595* for electrotherapy supplies

Product Specifications:

InTENSity™ Micro Combo

The InTENSity™ Micro Combo is portable electrotherapy device that combines TENS therapy and Microcurrent therapy, allowing treatment of a variety of musculoskeletal issues. The unit is equipped with two waveforms: Microcurrent and TENS. There are four modes of TENS and the microcurrent is adjustable from 0 to 700mA.

Product Features:

- Simple-to-operate, portable electrotherapy device for pain management
- Combines TENS and Microcurrent which are used for pain relief and electrical muscle stimulation
- Comes complete with carrying case, two sets of lead wires, 9-volt battery, AC adaptor, manual and pack of four self-adhesive reusable electrodes
- Power Source: Standard 9-volt battery or AC adaptor
- Dimensions: 4.5" x 2.55" x 0.9"
- Weight: 0.28 lb. with battery
- One year warranty
- HCPCS Code: E0730* for TENS Unit

InTENSity™ 10

The InTENSity™ 10 Digital TENS electrotherapy device allows patients to select from ten pre-set body icons for targeted therapy, making it the easiest and most effective TENS device available on the market today. With the press of two buttons, the easy-to-use device is ready to operate effectively based on the area of the body that is being treated. Comes complete with AC adaptor for effective therapy on the go.

Product Features:

- Simple to operate, portable electrotherapy device for pain management
- 2-button operation
- Device has ten pre-set body part selections making it easy for patients to target certain areas in pain
- Body part selections include: neck, shoulder, mid back, low back, elbow, wrist, hip, knee, ankle and foot
- Individual body part selections have a customized treatment program based on researched protocols
- Comes complete with carrying case, two sets of lead wires, 9-volt battery, AC adaptor, manual and pack of four self-adhesive reusable electrodes
- Power Source: Standard 9-volt battery or AC adaptor
- Dimensions: 4.5" x 2.55" x 0.9"
- Weight: 0.28 lb. with battery
- One year warranty
- HCPCS Code: E0730* for TENS Unit
- HCPCS Code: A4595* for electrotherapy supplies

InTENSity™ 5000 Hybrid

The InTENSity™ 5000 Hybrid device combines both digital and analog technology to create an innovative pain management device that is easy-to-use. The user will receive the right therapy at the right time with the ease of traditional knobs and the beauty of LED feedback. The InTENSity™ 5000 Hybrid comes complete with five modes, a timer, electrodes, lead wires, carrying case, user manual and 9-volt battery.

Product Features:

- Both digital and analog TENS device
- Comes complete with carrying case, two sets of lead wires, 9-volt battery, AC adaptor (optional), pack of four self-adhesive reusable electrodes and manual
- Unit includes five modes of operation - Burst, Normal, Modulation 1, Modulation 2 and SD mode
- Dimensions: 4.6" x 2.6" x 11.2"
- Weight: 0.2 lb. without battery
- One year warranty
- HCPCS Code: E0730* for TENS Unit
- HCPCS Code: A4595* for electrotherapy supplies

Product Specifications:

- Power Source: 9-volt battery or AC adaptor (optional)
- Channel: Dual isolated between channels
- Pulse Amplitude: Adjustable 0-80 mA
- Pulse Rate: 2-150 Hz
- Burst Rate: 0-5 Hz (Burst mode)
- Pulse Width: 30-260 microseconds
- Wave Form: monophase square pulse wave
- Timer: 15, 30 and 60 minutes or continuous

How Does TENS Therapy Work?

Transcutaneous Electrical Nerve Stimulation (TENS) is a non-invasive, drug-free method of controlling pain. TENS therapy is intended to be used to relieve pain by sending tiny electrical impulses through the skin that stimulate the nerve (or nerves) in the treatment area. TENS therapy does not work for everyone, however therapy is effective for most patients by reducing or eliminating the pain, allowing for a return to normal activity.

Care Tec IV™

The Care Tec IV™ combines the waveforms of Russian, EMS, TENS and IF therapy in a portable unit. The device offers preset modes that can be user defined. Maximum portability and simple operation offering you all the options of a clinical device in a portable package.

Product Features:

- Dual channel device
- Simple to operate, portable device for pain management
- Four waveforms, Russian, EMS, TENS and IF
- Comes complete with carrying case, lead wires, 9-volt battery, AC adaptor, manual and pack of four self-adhesive reusable electrodes
- Power Source: Standard 9-volt battery or AC adaptor
- Dimensions: 4.5" x 2.55" x 0.9"
- Weight: 0.28 lb. with battery
- One year warranty
- HCPCS Code: E0730* for TENS Unit
- HCPCS Code: A4595* for electrotherapy supplies

Over-the-Counter Electrotherapy Devices

TENS 7000 to Go™ Back Pain Relief System

The TENS 7000 To Go™ back pain relief system is a doctor recommended, over-the-counter (OTC) TENS device that provides prescription-strength pain relief associated with sore and aching muscles in the lower back. This easy-to-use device comes equipped with a conductive electrode support belt that transmits the current directly to the pain site. With five preset therapy modes, you can quickly customize your therapy and target your back pain.

Product Features:

- FDA cleared for over-the-counter sale (no prescription required).
- TENS technology stimulates body's own natural pain killers.
- Simple-to-operate, portable device and support belt for targeted pain management.
- Device has five pre-set therapy modes allowing you to customize your therapy and target your pain.
- Comes complete with TENS 7000™ device, conductive electrode support belt, snap-on lead wire, a 9-volt battery and user manual
- One year warranty from date of purchase

TOP TENS™ Pain Relief System

The TOP TENS™ Pain Relief System is a doctor recommended, over-the-counter (OTC) device that provides prescription-strength pain relief associated with sore and aching muscles in the upper and lower extremities due to strain from exercise or normal household and work activities. This easy-to-use device comes equipped with eight preset programs allowing you to customize your therapy and target your pain.

Product Features:

- FDA cleared for over-the-counter sale (no prescription required)
- TENS Technology stimulates body's own natural pain killers
- Simple-to-operate, portable device for pain management
- Device has eight pre-set programs allowing you to customize your therapy and target your pain
- Comes complete with TOP TENS™ device, two lead wires, 3 AAA batteries, user manual and pack of four self-adhesive reusable electrodes
- One year warranty from date of purchase

Basic TENS Units

The Roscoe Basic TENS Units offer a variety of options at an affordable price to satisfy your patient's needs.

Product Features:

- Provides relief from a variety of pain including back pain, headaches, sports injury and general muscle pain
- Pulse width (60-250) and a pulse frequency (2-150) are adjustable
- Two independent terminals
- Equipped with a 360 degree wire connector
- Comes complete with carrying case, lead wires, 9-volt battery, manual and pack of four self-adhesive reusable electrodes
- Power Source: 9-volt battery
- Five year warranty
- HCPCS Code: E0730* for TENS units
- HCPCS Code: A4595* for electrotherapy supplies

TENS 3000™

The TENS 3000™ analog unit uses a microprocessor, which gives exact dial performance. Benefits includes maximum full strength power of 80 mA. The TENS 3000™ is as accurate as a digital unit, yet easy to operate. The safety amplitude cap protects the amplitude knobs from accidental bumps or knob movements.

Product Features:

- System includes device, lead wires, four self-adhesive reusable electrodes, 9V battery, hard plastic carrying case and instruction manual
- Power Source: 9-volt battery
- Modes: Standard, Modulate and Burst
- Channels: Dual
- Timer: 30 and 60 minutes or continuous
- Pulse Width: 50-250 Microseconds, Adjustable
- Pulse Rate: 2-150 Hz
- Pulse Amplitude: 0-80 mA each channel
- Waveform: Asymmetrical biphasic square pulse
- One year warranty

TENS 7000™

The TENS 7000™ 2nd Edition is the best valued digital TENS unit on the market today. Proven to be the most durable and easy-to-use TENS unit. The upgraded digital processor is accurate and precise, the preferred doctor's choice for effective pain relief.

- System includes device, lead wires, four self-adhesive reusable electrodes, 9V battery, hard plastic carrying case and instruction manual
- Compliance meter, 60 records up to 999 hours
- Power Source: 9-volt battery
- Modes: Burst, Modulation, Constant, MRW, SD1 and SD2
- Channels: Dual channel for use with two or four electrodes
- Timer: 5 to 60 minutes, auto shutoff or continuous
- 100 mA output
- Pulse Width: 50 µS - 300 µS adjustable, 10 µS/step
- Pulse Rate: 2-150 Hz, adjustable
- One year warranty

TENS AA

The TENS AA is a unique digital TENS device that uses AA batteries, has five treatment modes and a large LCD screen. This unit has a recall program and is easy for anyone to use.

Product Features:

- Power Source: two AA batteries
- Modes: Constant, Burst I, Burst II, Modulated Width, Modulated Rate and Width
- Channels: Dual
- Timer: 15, 30, 45, 60 and 90 minutes or continuous
- Pulse Frequency: 20-150 Hz
- Waveform: Symmetrical biphasic or mono phasic
- Two year warranty

Item #	Description	Qty
DA1812	TENS AA, Digital Unit, 5 Modes	each

EMS Units

EMS 5.0 Muscle Stim

THE EMS 5.0 Muscle Stim Analog Unit is designed for personal use, however it is strong enough to be used in an office setting. The EMS unit uses electrical impulses to contract and relax muscles helping those who experience muscle tension in the upper back and neck areas. Can be used to regain muscle strength after surgery or after being in a cast. The EMS unit is portable and may be clipped to a belt, shirt, pocket or other clothing.

Product Features:

- System includes device, lead wires, four self-adhesive reusable electrodes, 9-volt battery, hard plastic carrying case and instruction manual
- 105 mA strong
- Power Source: 9-volt battery
- Channel: Dual, isolated between channels
- Pulse Width: 250 microseconds
- Pulse Rate: 5, 30, 100 Hz
- Pulse Ramp: 1, 3, 5 seconds
- Pulse Amplitude: Adjustable, 0-80 mA
- Contraction Control: 1-30 seconds
- Relaxation Control: 1-45 seconds
- Wave Form: Asymmetrical Bi-Phase Square Pulse
- One year warranty

EMS 7500 Digital Edition

The EMS 7500 is a fully portable digital muscle stimulator that features a patient compliance meter, three modes, safety amplitude cover, sturdy metal belt clip, rubber side railings for maximum handling and a premium silver finish.

Product Features:

- System includes device, lead wires, four self-adhesive reusable electrodes, 9-volt battery, hard plastic carrying case and instruction manual
- Patient compliance meter can store up to 60 sets of operation records and 999 hours
- Power Source: 9-volt battery
- Channel: Dual, isolated between channels
- Pulse Width: 50-300 mS, adjustable
- Pulse Rate: 2-120 Hz, adjustable
- Pulse Ramp: 1-8 seconds
- Pulse Amplitude: 100 mA peak into 500 phm load
- Contraction Time: 0-90 seconds
- Relaxation Time: 2-90 seconds
- Wave Form: Asymmetrical Bi-Phase Square Pulse
- Timer: 1-60 minutes or continuous
- One year warranty

Twin Stim® TENS and EMS Combo

Our most popular digital electrotherapy unit. The Twin Stim 2nd Edition is an exact combination of our TENS 7000 and EMS 7500, which gives the user the choice of five modes of TENS and two modes of EMS. Features include, dual channels, seven modes, timer, patient compliance meter, new stronger 100 mA output, safety amplitude cover, sturdy metal belt clip and rubber side railings for maximum handling.

Product Features:

- Five TENS Modes: Burst / Normal / Modulation / SD1 / SD2
- Two EMS Modes: Synchronous, Alternate
- System includes device, lead wires, four self-adhesive reusable electrodes, 9-volt battery, hard plastic carrying case and instruction manual
- Patient compliance meter can store up to 60 sets of operation records and 999 hours
- Power Source: 9-volt battery
- Pulse Width: 50-300 mS, adjustable
- Pulse Rate: 2-150 Hz, adjustable
- Pulse Ramp: 1-8 seconds
- Pulse Amplitude: 100 mA peak into 500 phm load
- Contraction Time: 2-90 seconds
- Relaxation Time: 2-90 seconds
- Wave Form: Asymmetrical Bi-Phase Square Pulse

Twin Stim® Plus

The popular Twin Stim® Plus is a four channel TENS and EMS combo unit complete with eight electrodes. The Twin Stim® Plus gives the user the choice of three modes of TENS and five modes of EMS. Unit can be powered by four AA batteries or by AC adaptor.

Product Features:

- Five TENS Modes: Burst / Normal / Modulation / SD1 / SD2
- Three EMS Modes: Constant / Synchronous / Alternate
- System includes device, AC adaptor, four lead wires, eight self-adhesive reusable electrodes, four AA batteries, hard plastic carrying case and instruction manual
- Built in patient compliance monitor
- Power Source: 4 AA batteries
- Pulse Width: 50-300 mS, adjustable
- Pulse Rate: 2-150 Hz adjustable
- Pulse Ramp: 1-8 seconds
- Pulse Amplitude: Adjustable: 100 mA peak into 500 ohm load
- Contraction Time: 2 - 90 seconds, 1 second/step
- Relaxation Time: 0 - 90 seconds, 1 second/step
- Wave Form: Asymmetrical Bi-Phasic Square Pulse
- Timer: 1-60 minutes or continuous
- One year warranty

Electrotherapy Devices

IF 4K™ Digital

The IF 4K™ Digital Interferential Device offers multiple treatment modes and can provide up to two hours of treatment with batteries or unlimited treatment using the AC adaptor.

Product Features:

- Dual channel digital device comes complete with AC adaptor
- Six modes of operation
- Low battery indicator light
- Automatic power off when unit not in use
- Waveform: Symmetrical balanced sine wave
- Beat Frequency: 2-160 Hz
- Carrier Frequency: 4000 Hz
- Modulating Frequency: 4002-4160 Hz
- Timer: 15, 30, 45 and 60 minutes
- Usage Timer: Maximum 999 hours
- Power Source: 4 AA batteries or AC adaptor

Item #	Description	Qty
DN4055	IF 4K™ Digital Interferential Device, Dual Channel	each

IF-4000

The IF-4000 helps control pain and speeds the healing process by delivering small pulses of electrical current to an injury through electrodes that pass current through the skin and stimulate underlying nerves producing a mild, tingling sensation to provide relief from chronic and acute pain. Interferential therapy is used for very localized areas where deep current for pain control or increased circulation is needed.

- Unit comes complete with device, AC adaptor, lead wires, four self-adhesive reusable electrodes, 9-volt battery, carrying case and manual
- Waveform: Symmetrical Bi-Phasic square
- Carrier Frequency: 4000 Hz
- Interface Frequency: 4001-4150 Hz
- Difference Frequency: 1-150 Hz, adjustable
- Output Voltage: 0-16 volts (through 500 ohms)
- Pulse Width: 125 Microseconds for each phase
- Four Frequency Shift: Continuous 1/1 abrupt, 8.8 abrupt, 10/10 ramped

Item #	Description	Qty
DF4000	IF 4000 Analog Interferential	each

Micro 2

Product Features:

- Dual channel microcurrent device
- Unit comes complete with device, lead wires, four self-adhesive reusable electrodes, 9-volt battery, carrying case and manual
- Wave Form: Modified square D.C Bi-Phasic pulses of .3 Hz, 8 Hz and 80 Hz changing polarity at intervals of 3 seconds
- Timer: 20, 40 minutes or continuous
- One year warranty

Item #	Description	Qty
DM9152	Micro 2 Microcurrent TENS Device	each

RS 2500

Russian Muscle stimulation is similar to EMS but with a higher frequency of 2500 Hz that allows for deeper, stronger yet more comfortable contractions of muscle fibers.

- Dual channel isolated
- Comes complete with AC adaptor
- Wave Form: Symmetrical Bi-Phasic square
- Carrier Frequency: 2500 Hz fixed
- Difference Frequency: 1-70 Hz adjustable
- Amplitude/Intensity Adjustment: 1-8
- Pulse Width: 200 µS
- Ramp Time: 2 seconds
- Contraction and Relaxation Time: Continuous or adjustable (10 to 45 seconds)
- Power Output: 38 volts (peak to peak) in bipolar mode; 28 volts in quadpole
- Power Source: 9-volt battery

Item #	Description	Qty
DR2500	RS 2500 Russian Stimulator	each

Digital Wireless Mini Stim EMS Unit

Small but mighty, the Wireless Mini Stim Device delivers EMS therapy in multiple programs at 90 mA. It is easy to use and is a very effective pain reliever.

Product Features:

- Small and portable - 2" x 1.18" x 0.4"
- LCD display complete with time and mode
- Ten preset programs
- Channel: Single channel output
- Power Supply: 3V CR2025 battery
- Output: 0-90 mA peak to peak into 500 ohm load
- Density: change of 16 steps pulses amplitude
- Timer: 30 minutes with auto off
- Wave Form: Dual phase square wave

Item #	Description	Qty
DM1000	Digital Wireless Mini Stim EMS Unit	each

Ultrasound Devices

Roscoe Medical offers a wide variety of ultrasound units to help patients suffering from deep and painful inflammation, joint restriction and swelling. Our high frequency devices stimulate the tissue beneath's the skin's surface penetrating up to 25 cm below the surface of the patient's skin to enhance the healing process and reduce swelling.

Ultrasound Devices

UltraTENS™

The UltraTENS™ combines the two most proven modalities for pain relief into one device. Deep heat from the therapeutic ultrasound and TENS therapy can be used simultaneously to help patients treat chronic and acute muscular pain. The simple to use device has 14 preset TENS functions and comes complete with ultrasound gel.

Product Features:

- Simple to operate, portable device for pain management
- Combines TENS and therapeutic ultrasound treatment for patients needing stronger therapy
- LCD display screen
- Automatic power shut-off after 10 minutes
- Ultrasound unit has stainless steel applicator
- Comes complete with device, set of two electrodes, lead wires, AC adaptor, ultrasound transmission gel and instruction manual
- Power Source: AC/DC adaptor
- One year warranty

Product Specifications:

	Ultrasound Therapy
Acoustic Frequency:	1 MHz ± 10%
Generator Output:	2.0 W ± 10%
Modulation Wave Shape:	20 Hz ± 10%
Duty Factor/5 Levels:	5%, 20%, 50%, 80%, 100%
Timer:	10 minutes
Actual Radiating Area:	4.0 w/cm^2 ± 20%
Actual Intensity:	0.5 w/cm^2 ± 20%
BNR:	5.0 ± 30%

DT6011	UltraTENS™ Device with TENS and Therapeutic Ultrasound Therapy	each

US 1000™ 3rd Edition Portable Ultrasound Unit

The US 1000™ offers effective ultrasound therapy by generating deep ultrasonic waves within body tissues to treat pain, muscle spasms and joint stiffness. The portable unit comes as a complete kit with carrying case, AC adaptor, ultrasound gel and manual.

Product Features:

- Therapeutic ultrasound device that generates deep heat to effected area
- Device must be used with ultrasound gel to conduct the ultrasound energy to the skin
- Three power output settings
- Comes complete with ultrasound, AC adaptor, carrying case, ultrasound gel and instruction manual
- Six month warranty on unit

Product Specifications:

- Power Source: AC adaptor
- Output Frequency: 1.0 MHz +- 10%
- Temporal Maximum Power: 4 W +- 20%
- Output Intensity: Low 1.6 W, Medium 2.6W, High 4.6 W
- Duty Cycle: Low 8%, Medium 14%, High 29%
- Output Mode: Pulse
- Pulse Width: 8% 05 mS +- 10%
- Repetition Rate: 150 Hz +- 10%
- Timer Setting: 30 minutes with auto off

How Does Ultrasound Therapy Work?

Ultrasound therapy is a method of stimulating the tissue beneath the skin's surface by using very high frequency sound waves. Ultrasound therapy is applied by using a round-headed wand or probe that is in direct contact with the patient's skin using a ultrasound gel. This physical stimulation enhances the healing process from the increase in blood flow to the effected area and is often used to treat musculoskeletal injuries.

US Pro 2000™ Professional Series Ultrasound Unit

The US Pro 2000™ offers professional strength 1 MHz ultrasound in a portable package. The device is strong and durable with three intensity settings. Complete with carrying case, ultrasound gel and AC adaptor. Perfect for use in the clinical or home care environment.

Product Features:

- Therapeutic ultrasound device that generates deep heat to effected area
- Device must be used with ultrasound gel to conduct the wave energy to the skin
- Three intensity settings - low/medium/high
- Comes complete with ultrasound, AC adaptor, carrying case, ultrasound gel and instruction manual
- Six month warranty on unit

Product Specifications:

- Power Source: AC adaptor
- Output Frequency: 1.0 MHz
- Temporal Maximum Power: 9.6 W, 1.2 w/cm^2 on high setting
- Output Intensity: Low 0.8 w/cm^2, Medium 1 w/cm^2 and High 1.2 w/cm^2
- Duty Cycle: Low 30%, Medium 40%, High 50%
- Output Mode: Pulse
- Timer Setting: 5, 10 and 15 minutes

Professional Devices

Roscoe's line of professional devices will work perfectly for all your therapy needs. Our Quattro™ II clinical device allows you to treat patients with amazing ease. The complete line of innovative devices will take you smoothly through each therapy session with quality you can trust.

Professional Devices

SoundCare Plus™ Professional Ultrasound Device

Unique in nature, the SoundCare Plus™ professional ultrasound device comes complete with two sound heads that can be plugged in simultaneously for more targeted therapy. Simple to operate, the user can switch between wands with the single push of a button.

Product Features:

- Comes complete with two sounds head, 1cm and 5 cm for more targeted therapy
- Used for the treatment of chronic and acute muscular pain
- User can switch between dual soundheads with the push of a single button
- Fully functional 1 MHz and 3 MHz frequencies
- 1 cm and 5 cm soundheads come standard
- 20 user defined presets with pulsed and continuous therapy
- Ergonomic handle design
- Two year warranty

Product Specifications:

Acoustic Frequency:	1 MHz ± 10%, 3 MHz ± 10%
Output Power:	0.5 - 10.0 W ± 20%, when duty factor ≥ 80% for 5cm^2 0.5 - 15.0 W ± 20%, when duty factor ≤ 70% for 5cm^2 0.1 - 2.0 W ± 20%, when duty factor ≥ 80% for 1cm^2 0.1 - 3.0 W ± 20%, when duty factor ≤ 70% for 1cm^2
Pulse Repetition Rate:	100 Hz ± 10%
Duty Factor:	10% - 100%, Stepping 10%
Timer:	Max 30 minutes
Effective Radiating Area:	5.0 cm^2 ± 20%; 1.0 cm^2 ± 20%
Actual Intensity:	3.0 w/cm^2 ± 20% (1.0 MHz) 3.0 w/cm^2 ± 20% (3.0 MHz)
Raw (Max):	5.0
Beam Type:	Collimated
Material of Applicator:	Aluminum
Waterproof Grade:	IPX7 only for treatment head

Quattro II™ Professional Electrotherapy Device

The microprocessor controlled Quattro II™ is a professional four-channel electrotherapy device that provides IF 4-Pole, IF 2-Pole, Russian, EMS and TENS waveform. Its portable design lets you take it to your patient or keep it at the clinic. It's easy to use and up and running within minutes, and its advanced operating system ensures a complete range of therapy no mater where you use it.

Product Features:

- Four channels of electrical stimulation output
- Large easy-to-read graphical LCD display with exact dial performance and programmable timer
- Waveforms include TENS, EMS, 2-Pole Interferential, 4-Pole Interferential and Russian
- 10 presets per waveform totaling 50 presets
- User defined memory positions for user protocols
- Designed for tabletop, therapy cart or mobile use
- Includes eight sets of electrodes, eight sets of rubber electrodes with sponges, eight straps, four sets of lead wires and a user manual
- Maximum treatment time of 60 minutes on all waveforms
- Product dimensions: 10 ½" (W) x 15" (L) x 8" (H)
- Product weight: 6.7 lb
- Two year warranty

Product Specifications:

	2-Pole Interferential Mode
Waveform Type:	Bi-Phasic Square
Carrier Frequency (C.F.):	2.5kHz
Sweep Low Beat Frequency: (Beat H.)	(Beat L.) - 150 Hz
Sweep High Bet Frequency: (Beat L.)	1-(Beat H.) Hz
Output Intensity:	0-50 mA (CC, at 1k ohm load) 0-50V (CV, at 1k ohm load)
Cycle Time (Cycle):	Continuous, 5/5, 4/12, 10/10, 10/20, 10/30, 10/50
Ramp Time (Ramp):	2 seconds

	TENS and EMS Mode
Waveform Type:	Mono or Bi-Phasic Square
Frequency:	1-250 Hz
Frequency modulation (F.M.):	0-249 Hz
Burst Rate (Burst):	0-10 Hz (7 pulse)
Phase Duration (P.Dur):	30-400µs
Amplitude Modulation (A.M.)	0%-100%
Output Intensity:	0-100 mA (CC, at 1k ohm load) 0-100 V (CV, at 1k ohm load)
Cycle Time (Cycle):	Continuous , 4/4, 4/8, 7/7, 5/5, 4/12,10/10, 10/20, 10/30, 10/50
Ramp Time:	1 second

	4-Pole Interferential Mode
Waveform Type:	Bi-Phasic Square
Vector:	Auto: 0%-100% Manual: 0°-90°
Carrier Frequency (C.F.):	4.0kHz
Sweep Low Beat Frequency: (Beat H.)	(Beat L.) - 150 Hz
Sweep High Bet Frequency: (Beat L.)	1-(Beat H.) Hz
Output Intensity:	0-50 mA (CC, at 1k ohm load) 0-50 V (CV, at 1k ohm load)

	Russian Mode
Waveform Type:	Bi-Phasic Square
Carrier Frequency (C.F.):	2.5k Hz
Burst Frequency (Freq.)	20-100 Hz
Output Intensity:	0-50 mA (CC, at 1k ohm load) 0-50 V (CV, at 1k ohm load)
Duty Cycle:	10%, 20%, 30%, 40%, and 50%
Ramp Time (Ramp):	1s, 2s, and 5s

ComboCare™ E-Stim and Ultrasound Combo Professional Device

The ComboCare™ is the latest addition to Roscoe's professional line of therapy systems. This all-new micoprocessor controlled unit combines clinical ultrasound therapy with five treatment waveforms: IF 4-Pole, IF 2-Pole, Russian, EMS and TENS. Large easy-to-read LCD panel allows the clinician to quickly set up treatment parameters. A dual frequency 5 cm sound head comes standard with the unit.

Product Features:

- Portable therapy - provide ultrasound and e-stim simultaneously, great for treating trigger points
- Two channels of electrical stimulation output
- Large easy-to-read graphical LCD display with exact dial performance and programmable timer
- Waveforms include TENS, EMS, 2-Pole Interferential, 4-Pole Interferential and Russian
- Dual clinical ultrasound features a 5 cm^2 sound head which offers 1 MHz and 3 MHz frequencies
- Ultrasound has 10% - 100% duty cycle selections
- 10 presets per waveform
- 20 ultrasound presets
- User defined memory positions for user protocols
- Designed for tabletop, therapy cart or mobile use
- Includes eight sets of electrodes, eight sets of rubber electrodes with sponges, eight straps, four sets of lead wires and a user manual
- Product dimensions: 10 ½" (W) x 15" (L) x 8" (H)
- Product weight: 6.7 lb
- Two year warranty

Product Specifications:

	General Unit Specifications
Waveform:	IFC-4P, IFC-2P, TENS, EMS and Russian
Pulse Width:	30-400 µS
Frequency:	1 MHz and 3 MHz for ultrasound, 1-250 Hz for LF, beat frequency for IF: 1-150 Hz, carrier frequency for IF: 4K Hz, carrier frequency for Russian: 2.5K Hz
Power Supply:	Adaptor, input 100-240V 50/60Hz, output 15V/3A
Intensity:	Max 3W/CM^2 (pulse) for ultrasound, 0-50mA for IF (1KΩ), 0-100mA for LF (1KΩ)
Working Time:	Max 60 minutes for IF, Max 30 minutes for ultrasound and combo
Dimensions:	9.8" x 7.3" x 3.2"
Weight:	5.5 lb.
Working Environment:	Temperature: 10°C - 40°C Humidity: 30% RH to 85% RH Atmospheric Pressure: 800hPa - 1060hPa
Storage Environment:	Temperature: 10°C - 55°C Humidity: 20% RH to 85% RH Atmospheric Pressure: 700hPa - 1060hPa

Conductive Garments and Braces

Roscoe Medical offers a wide variety of conductive garments and braces designed to be used in conjunction with a variety of electromedical devices both in the home and the clinical setting. Our garments are designed with a unique material consisting of a conductive silver mesh and can stimulate large or multiple areas without skin irritation.

Conductive Garments and Braces

The ReliefWrap™

Compatible with virtually all devices, the ReliefWrap™ Brace helps patients place electrodes on difficult to reach locations without assistance from others. This belt can be customized to fit patient's specific needs based on treatment protocols. Available in a wide variety of sizes.

Product Features:

- Belt can be customized to accommodate either four electrodes for TENS and EMS therapy or eight electrodes for Interferential therapy
- Available in sizes small through extra large
- Belt can be hand washed

Item #	Description	Qty
GF5350	ReliefWrap™, Small (25" - 35" waist)	each
GF5020	ReliefWrap™, Medium (33" - 44" waist)	each
GF5240	ReliefWrap™, Large (40" - 51" waist)	each
GF5130	ReliefWrap™, Extra Large (47" - 58" waist)	each

Conductive Back Brace with Silver Mesh Lining

Our Conductive Back Brace with Silver Mesh Lining was designed to treat the large area of the back, which can be difficult to reach with standard self-adhesive electrodes.

Product Features:

- Silver mesh lining stimulates without skin irritation
- Belt can be hand washed

Item #	Description	Qty
GB3085	Conductive Back Brace with Silver Mesh Lining, Small/Medium (32" - 43" waist)	each
GB3070	Conductive Back Brace with Silver Mesh Lining, Large/Extra Large (47" - 58" waist)	each

Garmetrode Conductive Back Brace

Roscoe's Garmetrode Conductive Back Brace has overlapping double pull straps to help support the lumbar and abdominal area and promote proper spinal alignment. Patients can easily access the electrodes from the back of the belt. Can be worn even if not using in conjunction with electrotherapy.

Product Features:

- Premium back belt has double pull straps for additional support
- Can be used with or without electrotherapy
- Available in sizes small through 5XL
- Belt can be hand washed

Conductive Wrist Brace

Roscoe's Conductive Wrist Brace is perfect for treating wrist injuries, sprains, strains and carpal tunnel syndrome. In addition to the excellent wrist support, the brace comes complete with conductive fabric straps designed to apply TENS stimulation to wrist without the need for self-adhesive electrodes. Contoured fit available in two sizes, perfect for fitting a wide variety of patients.

Product Features:

- Conductive fabric strap are long enough to cover the important treatment areas of the wrist
- Contoured fit
- Gentle compression and support
- Adjustable fasteners hold the brace in place, enhancing proper and precise stimulation

Therapeutic Pillows

Roscoe's Therapeutic Pillows are designed to dramatically reduce pressure associated with surgery or general discomfort. Whether looking for invalid rings or memory foam sleep pillows, you can be sure you are receiving a quality and cost effective product. Perfect addition to your showroom floor!

Therapeutic Pillows

Invalid Ring with Cloth Cover

The Roscoe Invalid Ring is ideal for home, office or car use. The ring-shape comfortably conforms to body contours and is made of puncture resistant foam.

Attractive Retail Packaging!

Product Features:

- High-density, one-piece molded foam retains shape through repeated use
- Puncture resistant
- Ring-shape comfortably conforms to body contours
- Provides comfort and support when sitting for an extended period of time
- Reduces pressure or discomfort associated with surgery
- Cotton cover is removable for easy cleaning
- Color: navy
- Weight capacity: 250 lb.
- One year warranty

Memory Foam Coccyx Seat Cushion

The Roscoe Coccyx Seat Cushion is designed to relieve back pain as the coccyx cut out allows the tailbone to remain suspended in the air, reducing pressure on the lower spinal column.

Attractive Retail Packaging!

Product Features:

- Provides comfort and support when sitting for an extended period of time
- Helps relieve pressure sores while distributing weight evenly and providing proper support
- Visco-elastic foam maximizes posture and seating comfort
- Soft terry-velour cover is removable for easy cleaning
- Color: black
- One year warranty

COC-18	Memory Foam Coccyx Seat Cushion	18" x 16" x 3"	each

CoolFlow™ Memory Foam Pillow

The CoolFlow™ Memory Foam Pillow combines double lobed memory foam and gel pads to cradle the user's head providing perfect cervical posture. This innovative design has a mesh cloth finish that allows fresh air to circulate into the pillow, providing perfect temperature for the user.

Product Features:

- Double lobed memory foam and gel pad inserts provide excellent cervical support
- Mesh cover allows constant air circulation throughout the night to control excess heat
- Fits a standard pillowcase

Item #	Description	Size	Qty
PP3230	CoolFlow™ Memory Foam Pillow	18" x 16" x 3"	each

Fiber Filled Quad Core Cervical Pillow

The Roscoe Quad Core Cervical Pillow incorporates a recessed core for gentle support of head, neck and shoulders. Fits standard pillowcases.

Product Features:

- Designed with a recessed core to support the head, neck and shoulders
- Less tossing and turning for a deeper, more restorative night's sleep
- Constructed with a unique blend of soft polyester fiber for comfort
- Polyester fiberfill holds its shape twice as long as average pillows
- Fits standard pillow cases

Item #	Description	Size	Qty
PP3113	Fiber Filled Quad Core Cervical Pillow	23" x 16.1" x 4.7"	3/case

Memory Foam Quad Core Cervical Pillow

The Memory Foam Quad Core Cervical Pillow supports the upper back and neck while maintaining natural spine curvature. Does not break down like regular foam.

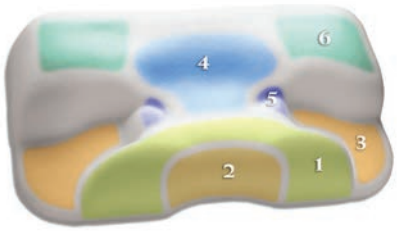
Product Features:

- Designed with a recessed core to support the head, neck and shoulders
- Reduces pressure on your neck and back
- Memory foam will not break down like other foam pillows
- Sculpted 100% visco-elastic memory foam
- Fits standard pillow cases

Item #	Description	Size	Qty
PP3135	Memory Foam Quad Core Cervical Pillow	23" x 16.1" x 4.7"	3/case

Contour CPAP Sleep Pillow

This specially designed pillow is for CPAP mask users and is used to improve comfort for all styles and brands of CPAP masks.



Product Features:

- Patented hollow areas alleviate mask pressure, improves comfort and helps prevent mask leaks
- Dual cutout design accommodates the mask, allowing for comfortable left or right side sleeping without compromising CPAP compliance
- Contoured shape supports your head and neck improving spine alignment
- Improves airway alignment
- High quality medical grade foam is cushiony, yet holds its shape to prevent edge collapse, maintaining the hollowed-out mask area
- Overall design helps CPAP users attain a comfortable, restorative sleep, night after night

Roscoe Medical Company Overview

Better home care products – *Better Living.*™

Founded:	1993
Website:	www.roscoemedical.com
Corporate Overview:	Roscoe Medical was founded in 1993 as a respiratory replacement parts and distribution company. In 2008, Roscoe started producing its own line of high quality Roscoe-branded products. In 2012, Roscoe acquired Current Solutions and added a complete line of pain management products. Today, through a national distribution network, Roscoe services 2,500 customers with over 3,500 locations including large national HME dealers, buying groups, independent HME dealers, retailers, hospitals and nursing homes.
Vision:	Our vision is to be recognized as the leader in selective markets of home healthcare products and related services through innovative products that promote independence and better living in the comfort of home.
Market Focus:	Respiratory, CPAP, Pain Management and Durable Medical Equipment
Strategic Advantages:	• Global manufacturer known for high quality, low cost products and exceptional manufacturing capabilities • Superior customer service and product knowledge • Vendor consolidation - Roscoe offers a wide selection of products all from ONE source • National distribution network - **Roscoe operates three distribution centers located in Ohio, California and Texas**
Products:	Electrotherapy • Ultrasound • Conductive Garments • Therapeutic Braces • Orthopedic Braces • Medical Gas Products • Oxygen Supplies • Pulse Oximetry • Aerosol Therapy • Tracheal Care • Concentrator Filters and Parts• Liquid Oxygen Parts • Infection Control • CPAP Therapy • Wheelchairs • Rollators • Walking Aids • Bath Safety • Home Care Beds • Pressure Prevention • Patient Room Equipment
Online Catalog:	**http://catalog.roscoemedical.com/**
Contact Us:	For more information, please contact us at **1.800.3.ROSCOE** or email at **corporate@roscoemedical.com**.

Bath Safety Products:

- Shower chairs
- Bath benches
- Transfer benches
- Raised toilet seats
- Three-in-one commodes
- Toilet safety frame
- Tub and shower grab bars
- Bariatric bath safety products

Terms and Conditions

Ordering Policy

A valid Roscoe account number is required when placing an order. Once an order for stock product has reached booked status (ready to ship) and is in the shipping process, changes to the order will not be accepted. If it is necessary to change or cancel an order for a non-stock item, Roscoe Medical must be notified immediately, within the same business day. Credit cards are accepted: Visa, MasterCard and American Express.

Freight Policy

Roscoe Medical ships all orders received by 3:00 EST same day. Stock Orders must have a booked (Ready-to-Ship) status. Orders placed on hold for credit reasons or price deviations will be delayed for shipment until all holds are cleared. All shipments from Roscoe Medical are F. O. B. Origin. This means that the title of product transfers to the buyer at the time the product leaves the Roscoe Medical shipping dock or manufacturing location.

Exceptions to Freight Policy:

- Published freight costs plus handling fees will be charged on shipments to Puerto Rico and Canada.
- Any order requesting expedited delivery will be charged at published list rates. Any order requiring special handling may be subject to additional charges.
- COD shipments will be subject to additional charges.
- Direct ship and clearance items will be charged at published list freight costs.

A customer may pick up any available stock product at a Roscoe Distribution Center with a minimum of four (4) hours advance notice, from 9:00 a.m. - 4:00 p.m. , local distribution center time. If a product is not available in a customer's primary shipping location, Roscoe Medical reserves the right to ship a product from its choice of location.

A customer may obtain tracking and delivery confirmation from the carrier, or from a member of our Customer Service Team at (800) 376-7263 or (877) 871-7858 or at www.roscoemedical.com or www.currentsolutionsnow.com.

Warranty

We warrant each item to be free of defects in material and workmanship under normal use. This warranty is in lieu of all other warranties expressed, implied or previously printed and does not apply in the event of negligence, abuse, misuse or normal wear and tear. We are not responsible for injury that may result from abuse, misuse or user negligence and our liability is limited to original selling dealer or distributor. Unauthorized service or modification of product invalidates warranty. If a covered defect is found, Roscoe Medical at its option will do one of the following: 1) Replace any defective or nonconforming part or product. 2) Issue a credit or refund at the original selling price.

Merchandise Inspection

The customer is required to inspect all merchandise upon delivery. Any visible damage or carton shortage should be noted on the carriers delivery receipt. Claims for content shortage should be made to Roscoe Medical Customer Service Department within five (5) days of delivery or any such claim is waived. Concealed damage requires immediate inspection by the carrier or any claim is waived. The customer is responsible for filing of all freight and concealed damage claims with the carrier.

Refused Shipments/Reconsignment

It is the responsibility of the customer to contact Roscoe Medical within two (2) business days of the attempted delivery to inform Roscoe that a shipment has been refused. Refusing a shipment in full or part does not guarantee a credit to the consignee. If the consignee refuses the shipment, the carrier will return the product back to the original shipping location.

The refused shipment will undergo one or all of the following:

- RA assignment in accordance to RA assignment policy
- Returned to Consignee when applicable

Allow for thirty (30) days to process any RA associated with a refused shipment order. If a reconsignment of shipment is necessary, and it is found the fault of Roscoe Medical, then Roscoe will pay reconsignment charges and have the freight delivered to the original specified location. If a reconsignment is necessary, and it is found to be the fault of the consignee, then the consignee must accept and receive delivery of the shipment. Once the shipment is received, the consignee can negotiate a re-delivery of the product at the consignee's expense.

Return Goods Policy

Roscoe Medical will accept returns within 30 days from the original ship date. A 25% restocking fee will be subtracted from the original cost and a credit fro the difference will be issued. Returns must be shipped with freight charges prepaid. Shipping costs are not refundable. All returns must be approved with a return authorization number. Please call a member of our Customer Service Team at (800) 871-7858 to obtain a return authorization number. Provide the following information: item number, original order number and reason for return.

The return authorization number must be marked clearly on the returned carton and is valid for 10 business days from the date of issue. Returned merchandise must be in the same unit of measure as originally purchased.

Return labels or call tags can be issued by our customer service department to return merchandise. Associated fees and return freight charges will apply. All returns of drop shipped items are subject to a restocking fee as well as inbound and outbound freight charges.

Returns will not be accepted on items that are: opened or used, missing their serial number, special order items, returned more than 30 days after delivery and items that are returned without notification.

In order to give the best customer service possible, please follow the procedure outlined below when returning a product:

1. Report defective product to the Customer Service Department by calling (800) 871-7858.
2. Roscoe will verify date of purchase to ensure product is still under warranty. The date of purchase is defined as the date the customer purchased the device from Roscoe Medical.
3. In the event the product is under warranty, Roscoe will provide technical support and troubleshooting from 9am - 5pm EST.
4. If defects are found, an RMA # and call tag will be issued. If product is defective a new device will be sent out free of charge under the device warranty.
5. If device is found to be fully functional, device will be sent back to customer and customer will be charged inbound and outbound freight.
6. All returns must have an RMA #, no multiple returns will be accepted. Each device must have a unique RMA #.
